ESQ. J. W. McGAUGHEY
Dies of Pneumonia At His Home Near Newstead.

Mr. John W. McGaughay, one of the county's best citizens, died Friday night, at his home near Newstead.

He was the youngest of six children of Col. Arthur and Julia (Hume) McGaughay, and was born July 1, 1882, at the place where he died, "Steadfast," near Newstead.

Esq. McGaughay followed the occupation of a farmer all of his life, and was very successful. He was married April 7, 1868, to Miss Hattie P. Kincaide, daughter of Lindsey Kincaide. They had four children, two of whom survive them. Mrs. McGaughay died about two years ago. Esq. McGaughay was a justice of the peace for several years and was an elder in the Presbyterian church.

He was taken ill a week or two ago from what appeared to be an attack of grip, he soon developed pneumonia. Being in feeble health, he was unable to withstand the attack and passed away.

The funeral took place Sunday afternoon at his late residence and he was buried on the place.

He was an uncle of Mr. A. M. Henry, of Newstead, and of Messrs. A. H. Wallace, H. D. Wallace and Dr. Howe H. Wallace.

MRS. HUGGINS' SISTER

Passes Away After Long Illness, in Trigg.

Mrs. Hester A. Crass, wife of Mr. William Crass, and sister of Mrs. R. H. Huggins, of this city, died on the 21st inst., at her home near Golden Pond, Trigg county. She had been sick for several months and death was caused by consumption. She was fifty-nine years old and a member of the Baptist church. Deceased was a sister of Messrs. W. A. and Z. T. Bogard of Golden Pond. Mrs. Huggins attended the burial, which took place in the Bogard burying ground.

CIRCUIT COURT.

Trial of Griffin's Administrator vs. L. & N.R.R.

The trial of the case of Griffin's administrator against the L. & N. railroad company for \$5,000 damages was entered into Saturday and had not been concluded when our forms closed yesterday evening.

Several other common law cases will be called for trial this week.

For Appendicitis.

Mrs. James E. Cooper went to Nashville last week, suffering with appendicitis, and on Wednesday had an operation performed. She stood the operation well and is now improving and it is hoped will soon be completely restored to health. Mr. Cooper is with her.

MAN'S SKULL CRUSHED.

Brothers-in-Law Fall Out
and One Kills The Other.

News was received in the city yesterday of a killing which occurred near Weaver's store, about four miles West of Lafayette, Sunday. Details are meager, but the facts, as learned, are about as follows:

A man named Wallace, who married a sister of James Young, of the same section, while under the influence of liquor came home and began to abuse his wife and his mother-in-law. Young remonstrated with his brother-in-law and some hot words passed between them. Wallace then drew his pistol, but before he could use it Young struck him over the head with a plank, knocking him down. His skull was crushed in and he died from the effects of the wound a few hours afterward, without regaining consciousness.

Immediately after the trouble Young left and at last accounts he had not been arrested. He is a young man and is unmarried. Wallace is also under thirty and had been married for several years.

In Bankruptcy.

TAE AMERICAN MONTALY REVIEW OF REVIEWS

The more Magazines there are, the more dispensable is the Review of Reviews

"Indispensable"—"The one magazine I feel I must take"—"The world under a field-glass." "An education in politics, art, and current literature; these are some of the many benefits from noted papers which the Review of Reviews gives." The more magazines there are, the more necessary is the Review of Reviews, because it brings together the best that is in all the most important monthlies of the world. Such is the unique character of the Review of Reviews, that no other publication can possibly rival it. Many nowadays people say that they do not care to write it in the Review of Reviews, entirely over and above this reviewing section, it has more original matter and illustrations than most magazines, and the most timely and important articles printed in any monthly.

Probably the most useful section of all is Dr. Allen St. John's illustrated "Program of the World," where the world is shown pictorially and lucidly explained in every issue. Many a subscriber writes, "This department alone is worth more than the price of the magazine." The unique cartoon department depicting current history in caricatured form is also a feature of the Review of Reviews, and yet it is American, fair and fearless.

Men in public life, the members of Congress, professional men, and the great captains of industry who must keep "up with the times," intelligent men and women all over America, have decided that it is "indispensable."

ANXIOUS TO ILLUSTRATE.

"Judicial Ignorance" Seeks Explanation of a "MILL" But Declines Practical Exhibition.

The quality known as "judicial ignorance" is as often amusing as it is assumed. The most "ignorant" of magistrates may, however, carry the thing a little too far. Not long ago a young hooligan was charged with grievously assaulting another of the same class, says London Tit-Bits.

"What have you to say for yourself?" demanded the magistrate.

"It was a fair fight, your worship," was the reply. "I didn't begin it." The complainant "walks up to me an' offers to put me through it."

"Through what?" asked the magistrate.

"Through the mill!"

"What mill?" The prisoner simply gasped, and it was only after a very thoughtful pause that he replied: "Well, your honor, I can't explain no plain't but—with an air of one anxious to oblige—"I could show you hexactly 'ow it's done!"

"No, thanks! No, thanks!" remarked the magistrate, somewhat hurriedly. "Twenty shillings and costs!"

His Old Weakness.

"Ah," said Mrs. Oldcastle, "I had your husband hors de combat last night."

"Did you?" replied Mrs. Packenham. "He told me that he was goin' to the automobile show, but Josiah always did have a soft spot for horses. You know he had his start in life runnin' a dray,"—Chicago Record-Herald.

Chasepot, Inventor, Dead.

A cable dispatch from Paris says that Alphonse Chasepot, inventor of the famous rifle which bears his name, died aged 72 years. He was the son of a gunsmith of Muret, and followed his father's trade, entering the French state factories, and being transferred to Paris in 1856, where he soon became head of the establishment. He studied the science of gunpowder, and invented a gunpowder to be used in Italy against the Garibaldians. It has since been abandoned for a more perfect style of rifle. Chasepot received the cross of the Legion of Honor in 1865.

Some Hopkinsville People Profit By Neighbor's Experience.

It's a wise man who profits by the experience of his friends and neighbors. Here is a chance to do it and every man, woman or child in Hopkinsville who knows the misery of a kidney complaint, the discomforts lessened by kidney compunction or the annoyance of urinary disorders, will show uncommon wisdom to profit by this citizen's advice.

J. W. Pritchett retired grocer of Hopkinsville, Ky., has given me a great deal of trouble.

The pain was not continually severe, but came on by intermittent spells, which were sometimes very painful especially after over-exertion of any kind. Being constantly on the lookout for something to relieve me, I happened to read of Dr. Thomas' Kidney Pills, and was so impressed with the testimonials as to their worth, that I procured a box at Thomas & Trahern's drug store. The pills benefited me in every way and I hope the means of advertisement will be some aid in giving relief to some other sufferer."

212 SOUTH MAIN STREET,

MARCH 28, 1905.

The Weather.

Washington, D. C., March 27.
For Kentucky: Increasing cloudiness with thunderstorms to-night and Tuesday. Warmer tonight.

Gov. Frazier, of Tennessee, resigned yesterday to become Senator, and was succeeded by Hon. John I. Cox as Governor.

Senator Lahan Phelps has entered the race for Mayor of Louisville, after much deliberation, and hopes to defeat Paul Barth, the Grainger candidate, for the nomination.

Two large steamers collided in New York harbor Saturday night with 1,800 passengers aboard, but both were towed ashore in a sinking condition, without loss of life.

Cuat Jett has been given a new trial in the Cockrill case, escaping the gallows. He is also under a life sentence in the Marcum case, which he will accept and enter upon his term. The court declined to repeat the Caleb Powers reversal and Powers will have his fourth trial in May.

The editor of the Kentuckian has in course of preparation a historical article, the second of a series begun some time ago, that will prove of great interest and historical value to many people of Hopkinsville. It will appear in one of this week's issues, probably Thursday's paper.

Secretary of War Taft and a large party of Congressmen and Senators will go to the Philippines July 1 or an extended tour of the islands. Congressman Sherley, of Kentucky, will be one of the party. The President's daughter will be one of the ladies who will go.

James Fletcher, who shot Claude Buchanan, a school teacher, for whipping his daughter, a pupil in Buchanan's school, in Union county, was sued for \$10,000 damages by the wounded man, and the jury gave a \$2,500 verdict against him. To stop further litigation in the higher court, they compromised at \$1,250.

Very Close Vote.

The election, held Saturday at Adams, Tenn., seven miles East of Gethrie, to decide the question incorporating the place, went in favor of incorporation by a majority of three votes, 103 votes being polled.

IT IS ILLEGAL

To Open Mail Addressed to Others.

The authorities at Washington have fixed a penalty of a two hundred dollar fine on any person taking out of the postoffice mail other than his own. All postmasters are liable to make mistakes and get mail in wrong boxes and the law says that people must examine their mail before leaving the office and should they receive a piece which is not addressed to them it must be returned at once. That is the fault of the postmaster makes no difference. This law includes newspapers as well as first-class mail.

(SEAL) A. W. GLEASON,

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for a specimen free. F. J. Cheney & Co., Toledo, O. Sold by all druggists, 75c.

Take Hall's Family Pills for Constipation.

Spring Medicine

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by plumpness and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animal spirits, and cure all eruptions. "Have the whole family begin to take them today."

"Hood's Sarsaparilla has been used in our family for many years and always with success. Last spring I was all run down and got a bottle of it, and as usual received great benefit." Miss Beulah Borck, Stow, Vt.

Hood's Sarsaparilla promises to cure and keeps the promise.

CONFERENCE FOR PEACE AT COPENHAGEN.

Belief That Russia and Japan Are Preparing to Quilt.

BOTH HAVE ENOUGH.

Japan is Financially Embarrassed and Russia is Whipped.

London, March 26.—According to arrangements which are still liable to revision, King Edward will leave London on April 6. He will join Queen Alexandra at Cologne, and from thence Their Majesties will go to Copenhagen for the celebration of the birthday of King Christian, April 8. The Associated Press correspondent at Copenhagen telegraphs to-night that so far as known King Edward's visit has no connection with Russo-Japanese peace pour parlers, but that King Christian strongly favors peace, and should the Dowager Empress of Russia also come to their birthday celebration, it will be regarded as a signal of a peace conference at Copenhagen.

It is reported that M. D. Iswolsky, the Russian Minister to Denmark, left St. Petersburg on Saturday for Copenhagen.

A St. Petersburg dispatch to the Reuter Telegram Company states that the majority of the Council of Ministers agreed on the principal of the opportunity of initiating steps in the direction of peace, and correspondents in the principal European capitals all report that peace is in the air.

ANCIENT COIN

Dug Up In An Indian Grave Near The City.

Mr. James G. Jesup last week bought from a colored man an ancient Spanish coin that was dug from an Indian grave in the suburbs. It was 116 years old and was probably buried in 1883, when the Cherokee Indians passed through this city en route from Alabama to the Indian Territory. Several of them died while they were camped near Cate's Mill. One side of the coin has "1789 Louis IV," and a head of some monarch. The other side has "Hispano E I Ind. Rex." The coin is a little larger than a silver dollar, but not so thick. It is worn slick, but otherwise is well preserved.

THOMAS DANCE.

Old Citizen Near Pembroke Died Sunday.

Thomas Dance, a prominent and highly respected citizen of Todd county, between Pembroke and Trenton, died Sunday at the advanced age of 80 years. He lived with his nieces on a farm owned by the old gentleman. He was a member of the Cumberland Presbyterian church at Trenton. His body was taken to Russellville yesterday for interment at Redbank in Logan county, his former home.

MR. JAMESON DECLINES TO ENTER RACE**Card Giving His Reasons For Not Being a Candidate For Sheriff.****BUSINESS PREVENTS.****Is Grateful To His Friends For Proffers of Support.**

Mr. Thos. D. Jameson, of Pembroke, who was recently called upon by many voters to run for sheriff on the Democratic ticket, has declined to be a candidate. This will be a disappointment to many Democrats, who regard him as one of the strongest and most influential Democrats in the county. He authorizes the publication of the following notice to the party leaders, who will meet next Monday:

Notice.

Pembroke, Ky., March 27, 1905.
Having been urged by many friends throughout the county to become a candidate for the Democratic nomination for sheriff of Christian county, I have given the matter mature consideration and have reached the conclusion that, owing to the constant care which my farm and other interests require, I must decline. Were it possible to do so, it would be the greatest pleasure of my life to comply with the wishes of my friends, so freely and unselfishly expressed. I appreciate more than words can express the kindly interest manifested in my behalf, and will ever remember these friends with a heart full of gratitude.

Thanking each and every one for honor thus conferred upon me and assuring them of my high appreciation of their confidence and good will, I beg to remain

Yours,
THOS. D. JAMESON.

The Equity warehousemen started in to handle \$1,000,000 pounds. That figure was reached today, and it is now believed that fully \$4,000,000 pounds will be placed in the warehouses.

The success of the movement has far outstripped the expectations or even the hopes of those who had the matter in hand. Owensboro Inquirer.

IHE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago Scott found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

NEAR DEATH'S DOOR

Lena Vollman, a thirteen-year-old school girl of Owensboro, who had jumped a rope 75 successive times, fell over in a dying condition. It was thought for some time that her heart had stopped beating. Strichine was injected in her veins and she was brought back to consciousness, but soon her face and hands began to turn purple and she again lapsed into unconsciousness. She was removed to her home and is in a critical condition.

HOME IS HIS CASTLE.

Edwardsville, Ill., March 26.—The time-honored principle that a man's home is his castle has been applied by a jury in the Circuit Court in finding for the defendant in the case of James Tobin against John Winklemeyer for \$5,000 damages because the latter's dog disfigured his face. The defense set up that the dog had a perfect right to defend its own premises against an intruder, and the jury so decided.

B. S. RADFORD KILLED BY CARS AT GUTHRIE.

Crushed Under a Freight Train Switching In the Yards.

WAS EN ROUTE HOME.

He Represented a Fruit Company and Was Located at Cincinnati.

Baker S. Radford, of Pembroke, was killed at Guthrie Sunday night, by a freight train. He was there changing cars enroute from Cincinnati to visit his mother, Mrs. C. J. Radford, near Pembroke.

His brother, James A. Radford, is eastern representative of The California Citrus Fruit Company, married Miss Brister, of Russellville, Ky., but at present is located at Baltimore. Last December he placed his brother, Baker S. Radford, at Cincinnati, in charge of the surrounding territory. The latter in turn had another brother, Jos. E. Radford, working under him, with headquarters at Louisville. One other brother, Will D. Radford, is a farmer at Howell, Ky., and there are three sisters—Mrs. W. J. Chiles and Misses Stella and Charlie Radford. The two last named live with their mother. Sunday Mrs. Radford received a telegram from Baker saying he would arrive home on the 10 o'clock train. He had lately had an attack of rheumatism and was coming home to rest up a while.

He got off the Memphis train at Guthrie about 8:30 o'clock and was waiting for the train due an hour later. He was in the depot with a drummer friend and walked out on the platform. He had been gone but a few minutes when news came that a man had been killed. The drummer, whose name was not learned, upon finding that it was his friend, telephoned to his cousin,

ECZEMA ON LITTLE GIRL

Sleepless Nights for Mother and Awful Suffering of Child.

CURED BY CUTICURA

Had Given Up All Hope of Ever Making Any Cure.

Mrs. I. B. Jones, Addison, Ind. T. writes: "My little girl had been suffering for two years from eczema, and during that time I could not get a night's sleep, as her ailment was very severe. I had tried so many remedies and spent so much money, deriving no benefit, I had given up all hope of making any cure. As a last resort I was persuaded to try Cuticura, and the great relief and rapid change was manifested from the first application. I gave the child a bath with Cuticura Soap, using a soft piece of cotton cloth, and applied twice a day, each time following with Cuticura Ointment, and at the same time gave the Resolvent, according to directions. After two weeks of this treatment and two bottles of the Resolvent, together with the Soap, effected a permanent cure. I submit this for publication, hoping it will assist other sufferers in curing themselves."

COMPLETE TREATMENT Consisting of Cuticura Soap Ointment and Pills.

The first step in the treatment of chronic Eczema is to remove the scales from the skin and then the skin, and then smear with Cuticura Soap. Dry carefully and apply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cotton cloth and apply over the Resolvent Pills, or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds.

Sold throughout the world. Cuticura Resolvent, 50c; Soap, 25c; Ointment, 50c; Proprietary Oil, 25c. Postage paid for "How to Cure Eczema."

A WIFE'S TRAP.

"Jasper," said Mrs. Broadway, "do you know everything that happens to you during the day?"

"No," said Broadway, "I don't. There are a lot of things that happen to me that are bad enough while they are happening without having to live the whole experience over again after I get home."

"What, for instance?" asked Mrs. Broadway. "I am a little slow."

"Oh, I don't know. Broken telephone wires, blockades, delayed appointments, soggy lunches—"

"Oh, I don't mean little annoyances of that kind," she interrupted, hurriedly, "I mean the really strange, interesting, mysterious things that you get mixed up in. Tell me all of them, don't you know?"

"The strange, interesting, mysterious things?" echoed Broadway. "Great Scott, what do you think I am? I'm the stock market? I don't come across many mysteries, but if I ever do strike any I will make a note of them and let you know. Will that satisfy you?"

Mrs. Broadway said that it would. The next day she received the note from her mother, the result of the discussion of the conference of the preceding evening.

"I thing," she said, "that I have everything that happens to him."

The neighbor was more cynical. "Indeed!" she said. "How do you know he does?"

"He told me so."

The neighbor smiled. "Dear me," she said. "This is refreshing. And you have been married five years, too! Never mind, I used to feel the same way. I used to ask Warren if everything that happened to him during the day, and he swore that he did. But I doubted it. Finally I set a trap. Just to see if he really would tell me, I contrived some really strange, puzzling things should occur from day to day right under his nose, and he would tell me about them."

Mr. Broadway considered. "That is discouraging," she said uneasily. "I wonder if I had better test Mr. Broadway in the same way."

"I would, my dear, if I were you." "But I don't know what to do," sighed Mrs. Broadway. "I have never been unfaithful."

"Write him some letters that he won't be able to make head or tail of. Or, rather, don't write directly to him, but send the letters to some person that never existed, in his care. Send them frequently. That will set him wondering, and he means to keep his word and will tell you about them. I will do the writing, if you cannot disguise your own handwriting."

They wrote that afternoon to Miss Veronica Blitz, care of J. C. Broadway, and sent the letter to his downtown address. The next day Mrs. Broadway's troubles began. "While Broadway ate dinner, the neighbor went to him and a

waited in an agony of suspense for

some reference to the mysterious Miss Blitz, but all thought of that fictitious lady was evidently far removed from her guardian's mind.

"Did anything happen to-day, Jasper?" asked Mrs. Broadway, timidly.

"No," said Broadway, "I guess not, and went to bed."

The next morning the neighbor across the hall tried to be sympathetic but to entirely conceal her delight at the knowledge of Broadway's duplicity required a greater effort than she was capable of.

"I'm afraid it would turn out that way," she said. "It usually does. However, we will give him another trial. We will write again."

They did write again, now once, but many times yet so consummate a villain had Broadway become that through the mail he could letters he coolly ignored the whole business and in answer to Mrs. Broadway's ingenious question solemnly assured her that nothing worth reporting had come under his observation. On the tenth day after initiating the new system of espionage he sent his way a postscript to the letter he had written to the neighbor across the hall, and in answer to Mrs. Broadway's ingenious question solemnly assured her that nothing worth reporting had come under his observation. On the tenth day after initiating the new system of espionage he sent his way a postscript to the letter he had written to the neighbor across the hall, and in answer to Mrs. Broadway's ingenious question solemnly assured her that nothing worth reporting had come under his observation.

"Have there been others?"

"Yes, a dozen of them. I can't imagine the cause of the sudden spurt in my correspondence. I don't see why she doesn't notify her friends of her correct address. Let me have that letter, please. I suppose I'd better forward it."

Mrs. Broadway's complexion underwent a number of rapid changes.

"Forward it!" she exclaimed. "Why, do you know where she is? She was stenographer here for three years."

"Know her?" said Broadway. "Well, I should say I ought to. She was stenographer here for three years."

"And it was such an outlandish name, too," said the neighbor across the hall, when listening to Mrs. Broadway's account of the affair an hour later. "Who would have thought there was any living creature with such a name?"

No wonder the poor man didn't say anything. It is a wonderful coincidence."

"Yes," assented Mrs. Broadway. "I suppose it is, but I am not thinking about that. What I am wondering is, what did the real Miss Blitz think when she got those idiotic letters that you and I wrote?" —N. Y. Press.

MEN'S ABSURD WAYS

"As I have remarked before," began Louise, "the way to win a man's heart is to find out what he thinks his admirer in a woman and then cultivate the opposite graces."

"Rank heresy," murmured the listener.

"It is true," insisted Louise. "There is a handsome young bachelor in our office—tall, broad shoulders, brown eyes..."

"Yes, we know," interrupted Mona.

"Go on with your story."

"One day I waited nearly an hour

singing the praises of the modern athletic girl—the girl who can swim, row, hunt and skate. He said she was the ideal companion for a man. Only an idiot, he declared, would admire the delicate, hysterical types."

After this he made a number of invitations to the theater in order that I might spend more time skating and getting the strong body he said he admired. ... It, nothing came of it."

Louise sighed.

Presently she continued: "When Mrs. Brown, Drury and I went off staking we became the envy of the men in the office—even those who boarded at nice hotels. Occasionally, I would say that we had had waffles and syrup for breakfast, or that we were going to have broiled steak, hash and gravy, but no biscuits and honey for dinner..."

"And of course you never mentioned that the chances were the steak would be tough and the potatoes burned," said Mona.

"Certainly not," said Louise, with dignity. "One day the bachelor delivered a monologue on the education of women. He said it was the duty to learn to sew and cook. No sane man, he said, would fall in love with a woman who had not all the domestic virtues..."

Here the audience of girls grinned—broad, expressive grins. They had heard such remarks before.

"I went to a store—mentioned the fact that I was going to spend my Saturday afternoon baking bread," continued Louise.

"'Chump!'" exclaimed her listeners.

"Business was dull that day," Louise went on, "and every man in the office got to think about old times on the farm. We began picking up one another the large crusty loaves lying on the snow-white folded tablecloths.

The more they thought the hungrier they became. The result was that when I reached the office Monday morning they said they'd give me one dollar for four loaves of brown bread if I'd promise to do it again."

"Did you tell them what the janitor said when he took the garbage pail down just after you finished baking?" asked Mona.

"Of course not. I bought a pound of shelled English walnuts for 50 cents, molasses, yeast cake and graham flour and the like. I added some raisins. The kitchen was cold, so I put the bread pan up against the radiator. During the day the janitor put on plenty of steam, so instead of baking bread that night I had to spend the whole evening scraping the overflow dough off the kitchen floor. I added more nuts and another yeast cake, set it in the oven at night and baked it in the morning. It looked delicious, but I cut one loaf and found it had a crust a third of an inch thick, while the interior was a nice gluey mass of raw dough."

"The oven was too hot," explained Mona to the others. "You see, she does her best, but—"

"At the office," interrupted Louise, "they asked if I had forgotten about the bread. I said: 'No, indeed! Just as good as get time to make it will. I've got engagements for the next few evenings. I thought I had a bad idea to let the bachelor think I was receiving a lot of attention.'"

"She had to go to the dressmaker's one night," explained Mona, "a girl's another night and a church social. I told her I had to go to the office."

"Then," went on Louise, "I bought more nuts, another quart of molasses and another yeast cake. This time the bread was perfect. The men wanted me to promise to bake once a week and tried to show me that I'd be making more bread than I could eat. I said I'd eat as much as I could, but as I had spent \$1.50 for flour to say nothing of the graham flour, yeast cakes, molasses and gas, I said I didn't believe I'd have time to bake bread very often. You see, I had pictured the bachelor waking up to a true appreciation of my worth!"

"But what did he say?" asked all the girls.

"Nothing," answered Louise, gloomily. "He is in love with a pretty, pale girl who comes here for her health. She openly boasts that she can't sew or button a coat and doesn't know a skill from a teakettle, and doesn't intend to learn."

"Wise girl!" said the chorus.

"The bachelor says," explained Louise, "that what he likes particularly about her is her sweet clinging ways. She is just the kind of a girl, he says, that a man has to take care of always—so different from the modern independent woman."

"That's all the sense a man has," said the listeners, sympathetically—Chicago Daily News.

Books and Their Making

"At present the American people are divided into two classes," said the head of a well-known publishing house in New York, "those who forget to read and those who read to forget. A book was formerly a thing put aside to be read, but now it is taken up and put aside."

"I am not sure which is the better book for us bookmakers and the public, but it is certainly a fact that bookmaking is now a manufacture, while it used to be a science."
